

# Extensive seminar sponsorship packages available

## The south west's biggest renewable energy event

Renewable Futures is Regen SW's annual conference and trade show, and the biggest renewable energy event in the south west of England. This year it will focus on how, in the south west, we can not only maintain the success of our sustainable energy sector, but also how we can drive forward, make the most of existing opportunities, and achieve growth in the current economic climate.

Renewable Futures is a 'must attend' event for private, public, and third sector representatives involved in the south west's sustainable energy industry.

## The venue

The sixth annual Renewable Futures conference will be held from 10 -11 November 2009 at the assembly Rooms in Bath.

## Seminar sponsorship opportunity

For the first time, this year's event is allowing sponsorship of individual seminars and workshops, giving your organisation the chance to target the audience it is most interested in. As a sponsor, you will be given the opportunity to give a presentation at the seminar, tailor your message, and hand out information about your organisation to a captive audience. Prominent branding and pre-event marketing is also available.

## The package

- Joint branding with Regen SW on:
  - the holding slides for your seminar
  - the Renewable Futures webpage in the 'supporting sponsors' section
  - design of future marketing materials for Renewable Futures (in a 'supporting sponsors' section)
- An opportunity to present in the seminar you're sponsoring and address your target audience directly
- Banner in your workshop area
- Mentions in 'additional information' in press releases and paragraph on Regen SW website
- Smaller joint branding on the overhead presentation at the main plenary
- An opportunity to display literature at the conference
- Opportunity to give information out about your organisation at your seminar
- Free delegate place at the rest of the conference

## The cost

£2,000 for these packages, though alternative sponsorship possibilities may be considered, if appropriate.

To discuss this opportunity, please contact James Reddy, Regen SW communications manager.
