

# South West England Biomass Company Directory

***September 2007 edition***

This directory lists South West England companies with a significant involvement in biomass. The main Directory is an alphabetical listing of all the companies with a brief description of their capabilities, contact details and assurance schemes\*. Summary tables list firms working in each main area of activity.

A fully searchable and regularly up-dated version of this directory is available at [www.regensw.co.uk/directory](http://www.regensw.co.uk/directory).

## **All the Right Elements**

South West England stretches from Gloucester and Swindon in the east to Lands End and the Isles of Scilly in the west and is a natural home for renewable energy. It has the best climate in the UK, and the highest levels of solar radiation. There are strong areas of wind resources in all seven of our counties, one of the largest woodland resources in the country, and the potential to generate substantial amounts of renewable energy wave and tidal resources.

## **A Record of Firsts**

South West England has a track record of developing 'firsts' in renewable energy. There are over 200 companies and organisations engaged in the renewable energy sector, with particular strengths in consultancy and project development. The region is a positive environment for the renewable energy industry with 94% of West Country residents supporting the use of renewable energy, county level renewable energy targets, and pioneering policies and projects.

## **A Thriving Industry**

South West England boasts companies with expertise across all the main renewable energy technologies. With a strong base in consultancy services supporting companies and projects throughout the UK and around the world. We are also home to a number of developers and R&D intensive companies. Bristol alone boasts three tidal turbine device developers, reflecting our world leading status in marine renewables, spearheaded by the Wave Hub project. Our innovative companies are supported by world class expertise, resources and graduates from 14 universities and outstanding research at organisations such as the Met Office and Plymouth Marine Laboratories.

## **Contact us**

Regen SW welcomes enquiries for information and advice on project and supply chain issues. Please contact Steve Schofield, on 01392 474325 or [sschofield@regensw.co.uk](mailto:sschofield@regensw.co.uk).

***Disclaimer:*** Regen SW accepts no responsibility for the accuracy of the information provided in this Directory. Inclusion of a company in this Directory does not imply endorsement of it by Regen SW.

\* Where applicable, the Directory includes details for companies registered with principal national assurance schemes and trade association Codes of Practice. See back page for further details.

## A

### **Aardvark Em Ltd**

Higher Ford, Wivelscombe, Taunton, Somerset  
T: 01984 624989  
E: nickleaney@aardvarkem.co.uk  
www.aardvarkem.co.uk  
Contact: Nick Leaney

### *Consultancy, Biomass Heat*

Aardvark provides environmental excellence in water, waste, energy and environment delivering consultancy, design, assessment and management services to those sectors. Integrity, commitment, knowledge and innovation.

### **ADAS Renewable Energy**

25 Herbert Street, Whitehall, Bristol, BS5 9BL  
T: 0117 9552495 F: 0117 9552495  
E: mark.osola@adas.co.uk  
www.adas.co.uk/energy/index.html  
Contact: Mark Osola

### *Consultancy, Biomass Heat*

ADAS Renewable Energy (a group within ADAS - one of the largest land-based consultancies in Europe) specialises in delivery of renewable energy consultancy, research and project development, for organisations working in the environmental, agricultural and rural sectors. Our projects can range from heat supply for a single building to electricity generation from large-scale power stations. We also provide energy crop advice (producer group development, grant applications, and crop agronomy), commercial energy crop planting and harvesting services.

### **Advanced Recycling Technologies**

Norton Barn Offices, Ditchat Hill, Ditchat,  
Somerset, BA4 6TL  
T: 01749 860787  
E: info@art-environmental.com  
www.art-environmental.com

### *Consultancy, Biomass, Anaerobic Digestion*

ART is a long established company of specialist design engineers with technical expertise and over 25 years of experience in the waste processing and renewable energy sectors. The team have a proven track record in many aspects of project delivery in several commercial scale mixed waste processing facilities in the UK: Municipal Solid Waste, Commercial and industrial wastes, Construction and demolition Transfer Station residues.

### **Alkane Biogas Ltd**

5 Royal Crescent, Cheltenham,  
Gloucestershire, GL50 3DA  
T: 01242 24211  
E: jfink@alkane.co.uk  
www.alkanebiogas.co.uk

### *Project development, biomass, anaerobic digestion*

Design and operation of biopower plants; anaerobic digestion of animal manure and organic waste.

### **Alvan Blanch**

Chelworth, Malmesbury, Wiltshire,  
SN16 9SG  
T: 01666 577333  
E: info@alvanblanch.co.uk  
www.alvanblanch.co.uk

### *M&E supply, biomass*

Alvan Blanch is a British manufacturing company specialising in the design, production and supply of complete integrated crop processing systems throughout the world.

### **AnDigestion Ltd**

Holsworthy Biogas Plant, Holsworthy  
Devon, EX22 7HH  
T: 01409 253861  
F: 01409 254888  
info@andigestion.co.uk  
www.andigestion.co.uk

### *Operation & Maintenance, Anaerobic Digestion*

AnDigestion Ltd has been established by the Summerleaze Group to develop the technological base and commercial exploitation of anaerobic digestion (AD) in the UK. Summerleaze has extensive experience in the fields of waste management, landfill gas generation and project development, both through the parent company and AnDigestion's renewable energy sister, Summerleaze RE\_Generation Ltd. This expertise makes it the ideal enterprise for the development of a new waste-management and renewable power generation technology.

### **Ark Energy Ltd**

PO Box 2098, Bristol, BS99 7QN  
T: 0117 914 7158  
E: gs@ark-energy.com  
www.ark-energy.com  
Contact: Gerry Swarbrick

### *Consultancy, Installation, Hydro, Wind, Micro-renewables*

Developer of renewable energy projects with widespread experience of many technologies including wind energy, biomass, energy from waste, landfill gas, small-scale hydro and new marine energy devices.

# South West England: Biomass companies by A to Z

## Arup

63 St Thomas Street, Bristol, BS1 6JZ  
T: 0117 9765432  
www.arup.com/bristol/home/home.html

### *Consultancy, Construction, Wind, Biomass*

Our core skills are in the fields of structural, civil and building services engineering, including facilities management. We also provide specialist advice in a wide variety of areas, including transportation, environmental assessment, geotechnics, acoustics, economics and planning, and IT consultancy.

## Ashfords

Ashford House, Grenadier Road, Exeter,  
EX1 3LH  
T: 0870 427 7001  
E: info@ashfords.co.uk  
www.ashfords.co.uk

### *Consultancy, wind, wave & tidal*

Solicitors with specialists in energy, renewable generation, project finance and environment

## Atlantic Energy Ltd

Quenchwell, Carnon Downs, Truro,  
Cornwall, TR3 6LN  
T: 01872 864488 F: 01872 864411  
E: atlanticenergy@btconnect.com  
Contact: Charmian Larke

### *Consultancy, Biomass Heat, Hydro*

Energy & environmental consultancy. Specialists in renewable energies, wind, waste-to-energy, biomass and hydro.

## B

## BFC Solutions Ltd

Mowbarton House, Kingston St Mary, Taunton,  
Somerset, TA2 8AS  
T: 01823 451378  
M: 07979 696906  
F: 01823 451378  
E: bfc-solutions@btinternet.com  
Contact: Michael Pitcher

### *Consultancy, Micro-renewables*

An international consultancy with 25 years high level experience in the renewable energy industry and the deployment of innovative and practical low carbon, state of the art solutions across a broad range of technologies. BFC's special experience in the field of renewables and the intelligent use of energy in the public and private sectors, has provided the company with special insight to related policy areas; planning & regulation, energy services and ESCo's, waste, procurement, education and promotion, habitat management, health, fuel poverty, employment and climate change. BFC provide consultancy, advice and insight for renewable energy, sustainability, CSR, compliance, carbon mitigation strategy, feasibility studies, carbon footprint assessment, specialist research and evaluation, strategic and tactical market support, business development. An expert package dedicated to delivering a sustainable high added value, low carbon economy.

### **Biofuels**

Biofuel Matters provides specialist consultancy services to government agencies, trade associations and NGOs on biofuel issues with particular emphasis on commodity risk management, feedstock selection, supply networks and competition for crops.

## Biofuel Matters Ltd

17 Bryony Gardens, Gillingham, Dorset  
T: 01747 825389  
F: 01747 825389  
E: malcolmshepherd@yahoo.co.uk  
www.biofuelmatters.co.uk  
Contact: Malcolm Shepherd

## Biomass Industrial Crops Ltd

Kingsmill Arable Centre, Kingsmill, Cullompton,  
Devon, EX15 1BS  
T: 01884 35899  
E: enquiries@bical.net  
www.bical.net

### *Material Supply, Biomass Heat*

Bical is one of the leaders in the successful development and production of Miscanthus (also known as Elephant Grass) as an energy crop and for horse bedding.

## Bishop Fleming

16 Queen Square, Bristol, BS1 4NT  
T: 01179100250  
www.bishopfleming.co.uk

### *Consultancy*

Bishop Fleming has a wealth of experience from providing financial advice on a range of renewable energy projects including wind, wave and biomass power. We are capable of providing a full range of services including advisory, transaction support, project evaluation and financial modelling. Company employs about 230 staff in the southwest, and was established in 1919. We have offices in Bristol, Exeter, Plymouth, Torbay, Truro, and London.

# South West England: Biomass companies by A to Z

## **Bramshaw Heating and Plumbing**

19 Ashwood Road, Exeter, EX2 8JL  
T: 01392 277199  
F: 01392 209142

E: [info@bramshawheatingandplumbing.co.uk](mailto:info@bramshawheatingandplumbing.co.uk)  
[www.bramshawheatingandplumbing.co.uk](http://www.bramshawheatingandplumbing.co.uk)

## **Burdens Environmental**

Earl Russell Way, Lawrence Hill,  
Bristol, BS5 0WT  
T: 0845 601 1188  
F: 0845 609 2525

E: [eco@burdens.co.uk](mailto:eco@burdens.co.uk)  
[www.burdensenvironmental.com](http://www.burdensenvironmental.com)

*Installation, Solar Thermal, Biomass Heat*

Solar Thermal and Biomass Heat installers.

**LCBP Accredited Installer for Biomass Stove, Biomass Boiler**

*Material & Equipment Supply, Biomass, Solar Thermal*

Suppliers of renewable energy , heating and microgeneration products, including Biomass boilers and CHP , Solar water panels , Solar Photovoltaic (PV) panels, wind turbines and ground source heat pumps. We also supply a vast range of environmentally safe and integrated natural building products, including, sustainable drainage systems, rainwater harvesting , bacterial water treatment systems, Ecological building systems and natural insulation products

## **Burges Salmon**

Narrow Quay House Bristol BS1 4AH  
T: 0117 939 2000

E: [ian.salter@burges-salmon.com](mailto:ian.salter@burges-salmon.com)  
[www.burges-salmon.com](http://www.burges-salmon.com)

*Consultancy, wind, biomass*

Burges Salmon has a dedicated Renewable Energy Team which brings together experts from various departments of the firm to provide clients with an integrated team, which is familiar with the sector and has practical experience. We are at the forefront of advising on the legal issues associated with new and developing technologies such as wave and tidal power, gasification, pyrolysis and hydrogen/fuel cells as well as being closely involved in biomass and wind projects.

## **Buro Happold**

Camden Mill, Lower Bristol Road, Bath  
Somerset, BA2 3DQ

T: 01225 320600  
F: 0870 7874148  
[www.burohappold.com](http://www.burohappold.com)

*Consultancy*

Consulting Engineers.

## **C**

## **C A A Barnes & Partners**

Loyton Farm, Morebath, Tiverton,  
Devon, EX16 9AS  
T:01398 331051 F:01398 331052  
E: [mail@loyton.com](mailto:mail@loyton.com)

*Consultancy, biomass*

Loyton Energy (part of CAA Barnes & Partners) is a R&D company specialising in the development of Short Rotation Coppice willow. It has also developed agricultural equipment used in the RE industry.

## **Calash Ltd**

Rectory Cottage, Upton Hellions,  
Credon, EX17 4AE  
T: 01363 774955  
E: [mail@calash.com](mailto:mail@calash.com)  
[www.calash.com](http://www.calash.com)

*Consultancy*

Calash Ltd. provides operational, commercial, marketing and technical diligence and assessment services, to clients in the UK and overseas. Our clients range from SME's and multi-nationals to public bodies and academia who are looking to acquire either technology, companies or want specific, focussed market intelligence. We work extensively with development funding programmes to give independent diligence on companies or start-up ideas.

Contact: Alec Rice

## *Project development*

Developer of Land Fill and Sewage Gas projects.

Carroll Consultants is an executive search and selection consultancy. We specialise in the inter-related sectors of property, environment, economic development, regeneration, energy, waste and water. We work with clients throughout Europe, the Middle East and USA as retained consultants to identify and recruit the best candidates for senior and specialist functions.

## *Supplier, biomass*

Suppliers of Willow and Poplar cuttings from over 100 acres of high quality propagation material, mainly recent improved Willow clones from Svaloff Weibull.

## *Manufacture*

Manufacture gas turbines and assemble generator sets for combined heat and power installations. Able to manufacture complex components and sub-assemblies.

## *Consultancy*

Feasibility studies for community scale and micro-renewables; support to local authorities in development of sustainable energy/ carbon reduction strategies, policies and action plans; renewable energy training for local authority officers and councillors, architects and other construction professionals; support to local authorities and new build developers in developing, enforcing and meeting requirements for on-site renewable energy generation in new build; working with local authorities, social landlords, building occupants, community groups etc to facilitate low carbon buildings; support to developers and local authorities on public engagement in larger scale renewable electricity projects; specialists in policy research and stakeholder engagement on sustainable energy issues.

## *Consultancy & Support Services*

Marketing, communications and exhibition management services

## *Consultancy & Support Services, Wave & Tidal, Hydro*

Established in 1991 Coastline Surveys Ltd is an independent company specialising in coastal, marine and riverine surveys and research. The highly qualified and versatile professional workforce undertake surveys ranging from marinas to commercial ports, reservoirs and lakes to rivers, estuaries and the open seas. The uniquely mobile inshore service is available from isolated beaches to industrial centres and, together with the offshore surveying services, provides full coverage of the coastal zone within Europe. In-field services include Bathymetry, Geophysics, VibroCoring, Grab and Water Sampling, Benthic Sampling, Diving, Underwater Video, Trawling, Tidal Measurements, Wreck Location, Salvage, Towage, Buoy Inspection, Buoy Maintenance, Outfall Inspection, Quay Inspection, Equipment & Stores Transfer, Education, Filming, Dredging & Dredge Research

## *Consultancy*

Community Energy Plus is a registered charity (Number 1068990) and a company limited by guarantee (Number 3533571). CEP manages the Cornwall Energy Efficiency Advice Centre, Cornwall Sustainable Energy Partnership, the Cornwall Community Renewables Initiative and the Home Health Programme. CEP works in Partnership with all the local authorities in Cornwall plus a wide range of other public, private and voluntary organisations to encourage the sustainable use and provision of energy as a means of addressing climate change, energy security and the elimination of fuel poverty.

# South West England: Biomass companies by A to Z

## Compact Power Ltd

Yara House, St Andrew's Road  
Avonmouth, Bristol, BS11 9DQ  
T: 0117 980 2900 F: 0117 980 2901  
E: r.hogg@compactpower.co.uk  
www.compactpower.co.uk  
Contact: Richard Hogg

*Technology development, Project development, Biomass*

The Compact Power Process is an advanced thermal conversion technology specifically designed for the safe, economic and environmentally acceptable disposal of a range of wastes. The process is a fully integrated system for the pyrolysis, gasification and thermal oxidation of the wastes, the recovery of energy released from the process, and the treatment of the solid and gaseous emissions to satisfy authorised limits. Compact Power builds, owns and operates plants to process a wide range of waste streams including municipal, industrial and clinical waste.

*Consultancy*

Transport Consultancy

### Econergy Ltd

69 Hampton Park, Bristol, BS6 6LQ  
T: 0870 054 5554  
F: 0870 054 5553  
E: sales@econergy.ltd.uk  
www.econergy.ltd.uk

*Material & Equipment Supply, Construction & Installation, Biomass Heat*

The UK's premier wood energy company providing cost effective reliable wood heating solutions based on well-tried Continental designs. We deliver

- large-scale (100kW – 10MW) wood-chip and pellet boilers for district heating, country houses, commercial developments and the public sector.
- small-scale and domestic boilers for logs, pellets or wood-chips.

Econergy Ltd can offer a nationwide service for:

- Project scoping and outline proposals with payback and emission reduction figures
- Detailed designs including specifications, schematic diagrams and control solutions
- Energy services packages
- Project management, supply from a range of manufacturers and installation
- Full service backup including remote monitoring and servicing contracts
- Advice and training on, or provision of, wood fuel supplies including chip and pellets. REAL Assurance Scheme Members

The Tithe Office, Abbey Manor Business Centre, Preston Road, Yeovil, Somerset, BA20 2FJ  
T: 0845 257 5064  
F: 01935 848544  
E: info@ecofirst.net  
www.ecofirst.net

## *Material & Equipment Supply, Consultancy, Construction & Installation, Micro-renewables*

We are uniquely able to provide homeowners, self builders, architects/specifiers, house builders/developers and commercial project specifiers with a complete design, supply and installation service for sustainable technologies and sustainable equipment. Also supply rainwater harvesting equipment. Clear Skies accredited. REAL Assurance Scheme and Solar Trade Association Members.

**LCBP Accredited Installer for Solar Thermal, Wind**

## **Ecovector Consulting**

6 Beech Avenue, Claverton Down, Bath, BA2 7BA  
T: 01225 460392  
F: 01225 460392  
E: davidmartin@btinternet.com

## *Consultancy & Support Services, Biofuels*

Ecovector Consulting provides strategy and technical advice to support sustainable energy implementation. Our staff have over 30 years of international business and energy research and consultancy experience, covering energy efficiency, renewable energy and energy in transport. We are part of the Sustainable Transport Solutions Network, which offers specialist advice, research and consultancy to help the public and private sectors address the environmental and social impacts of transport energy use.

## *Supply, Installation, Heat Pumps, Solar Thermal, Biomass, Micro-Wind, PV*

Ecovision Systems offer a fully integrated and tailored service incorporating the design, installation and commissioning of a comprehensive range of renewable and sustainable technologies. We also offer a complete project management service, as well as specialist advice on Building Regulations compliance, SAP assessments and government grants. Whether you are a self-builder or renovator, consulting engineer, architect or developer, we can assist you to achieve the most efficient, environmentally friendly and cost effective renewable energy system for your building project. A Ground Source Heat Pump Association Member.

## *Technology development, project development, biomass*

The WasteGen's Materials and Energy Recovery Plants combine pyrolysis with recycling and composting in an integrated design. It is an innovative combination of proven technologies that will enable Local Authorities and their Waste Disposal Contractors to achieve their recovery and landfill avoidance targets.

### *M&E Supply, Construction & Installation, Biomass Heat*

Wood Energy Ltd are a leading UK supplier of high efficiency automatic wood chip and wood pellet boilers. Our systems range from domestic, to large scale multi-megawatt industrial heating. We offer Austrian Binder wood chip and wood pellet boilers from 25kW-10,000kW; Danish P&H wood pellet boilers for smaller heat loads from 12kW-47kW; Standalone automatic pellet stoves from 5kW-15kW. We also offer solutions for wood chip and wood pellet storage facilities and work with wood chip suppliers across the region. We supply and deliver wood pellet fuel across the UK.
