

# South West England Renewable Energy Company Directory

***October 2007 edition***

This Directory lists South West England companies with a significant involvement in renewable energy. The main Directory is an alphabetical listing of all the companies with a brief description of their capabilities, contact details and assurance schemes\*. Summary tables list firms working in each main area of activity.

A fully searchable and regularly up-dated version of this Directory is available at [www.regensw.co.uk/directory](http://www.regensw.co.uk/directory).

## **All the Right Elements**

South West England stretches from Gloucester and Swindon in the east to Lands End and the Isles of Scilly in the west and is a natural home for renewable energy. It has the best climate in the UK, and the highest levels of solar radiation. There are strong areas of wind resources in all seven of our counties, one of the largest woodland resources in the country, and the potential to generate substantial amounts of renewable energy wave and tidal resources.

## **A Record of Firsts**

South West England has a track record of developing 'firsts' in renewable energy. There are over 200 companies and organisations engaged in the renewable energy sector, with particular strengths in consultancy and project development. The region is a positive environment for the renewable energy industry with 94% of West Country residents supporting the use of renewable energy, county level renewable energy targets, and pioneering policies and projects.

## **A Thriving Industry**

South West England boasts companies with expertise across all the main renewable energy technologies. With a strong base in consultancy services supporting companies and projects throughout the UK and around the world. We are also home to a number of developers and R&D intensive companies. Bristol alone boasts three tidal turbine device developers, reflecting our world leading status in marine renewables, spearheaded by the Wave Hub project. Our innovative companies are supported by world class expertise, resources and graduates from 14 universities and outstanding research at organisations such as the Met Office and Plymouth Marine Laboratories.

## **Contact us**

Regen SW welcomes enquiries for information and advice on project and supply chain issues. Please contact Steve Schofield, on 01392 474325 or [sschofield@regensw.co.uk](mailto:sschofield@regensw.co.uk).

***Disclaimer:*** Regen SW accepts no responsibility for the accuracy of the information provided in this Directory. Inclusion of a company in this Directory does not imply endorsement of it by Regen SW.

\* Where applicable, the Directory includes details for companies registered with principal national assurance schemes and trade association Codes of Practice. See back page for further details.

### Aardvark Em Ltd

Higher Ford, Wivelscombe, Taunton, Somerset  
T: 01984 624989  
E: nickleaney@aardvarkem.co.uk  
www.aardvarkem.co.uk  
Contact: Nick Leaney

## *Consultancy, Biomass Heat*

Aardvark provides environmental excellence in water, waste, energy and environment delivering consultancy, design, assessment and management services to those sectors. Integrity, commitment, knowledge and innovation.

### ABEnergy

The Lancaster Centre, Meteor Business Park,  
Staverton, Gloucestershire, GL2 9QL.  
T: 01452 544 094 F: 01452 544 095  
E: info@abenergyuk.com  
www.abenergyuk.com

## *Project Developer, wind*

Wind farms and wind energy in the UK are the core business of ABEnergy, developing wind farm projects in the less windy areas of the United Kingdom. ABEnergy do this by utilising both green and brown field locations such as farmland (arable or stock) to disused industrial or commercial sites.

### Absolute Invincible Power Ltd

PO BOX 90, Honiton, East Devon, EX14 2ZQ  
E: enquires@invinciblepower.co.uk  
www.invinciblepower.co.uk

## *Equipment Supply, Installation, Solar Thermal*

Solar Hot Water installers.

## **LCBP Accredited Installer for Solar Thermal**

### ACE Plumbing & Heating

14a High Street, Shaftesbury, Dorset, SP7 8JG  
Tel: 01747 858852 Fax: 01747 851711  
Email: alan@aceplumbing.wanadoo.co.uk  
Web: www.ace-eco.co.uk

## *Installation, Solar Thermal*

ace-eco from The Ace Plumbing Group offers solutions for solar heating for your home or business. The latest solar panels we fit in the UK are an effective and efficient supplement to any heating system throughout the year, even in the British climate.

## **LCBP Accredited Installer for Solar Thermal**

### AC & T Ltd

12 Woolwell Drive, Plymouth, PL6 7JP  
T: 01752 795633  
F: 01752 795633  
E: ionian@tiscali.co.uk

## *Consultancy & Support Services, Project Development*

We are an environmental consultancy based in Plymouth, specialising in indoor environmental quality. We also help clients understand and improve the energy efficiency of their buildings and offer realistic advice on the true monetary and environmental savings of any proposed installation of renewable/ energy saving equipment. Our main ideology is to ensure a building has a good quality indoor environment, maintained in a sustainable, eco-friendly manner.

### ADAS Renewable Energy

25 Herbert Street, Whitehall, Bristol, BS5 9BL  
T: 0117 9552495 F: 0117 9552495

## **ADPS Ltd**

Mayflower House, Armada Way, Plymouth  
PL3 5BL Tel: 01752 226797  
Fax: 01752 268789  
info@adpsltd.com  
www.adpsltd.com

## *Consultancy & Support Services, Operation & Maintenance*

Marine Consultancy - specialists in Dynamic Positioning Operations - Offshore (Oil & Gas) hazop/haxid (Marine related), Warranty Surveys - Common Marine Inspection - DP Audits - Feasibility Studies/fit for purpose - Vessel Charter - Vessel Management - Crew Management

## **Advanced Recycling Technologies**

Norton Barn Offices, Ditchat Hill, Ditchat,  
Somerset, BA4 6TL  
T: 01749 860787  
E: info@art-environmental.com  
www.art-environmental.com

## *Consultancy, Biomass, Anaerobic Digestion*

ART is a long established company of specialist design engineers with technical expertise and over 25 years of experience in the waste processing and renewable energy sectors. The team have a proven track record in many aspects of project delivery in several commercial scale mixed waste processing facilities in the UK: Municipal Solid Waste, Commercial and industrial wastes, Construction and demolition Transfer Station residues.

## **Aeolus Power Ltd**

Foxhole Farm, Pilning Street, Pilning, South  
Gloucestershire, BS35 4JJ  
T: 01454 633323  
E: contact@aeoluspower.co.uk  
www.aeoluspower.co.uk

## *Equipment Supply, Construction & Installation, Micro & Small Wind*

Aeolus Power are the South Western Distributors and Installers for Proven Energy 2.5kw, 6kw and 15kw wind turbines for use in both the domestic and commercial market. Proven Energy have been manufacturing wind turbines since 1991 and have many turbines installed all around the country. Aeolus Power are happy to offer help and advice throughout to make the supply and installation of your wind turbine problem free. Clear skies registered installer no; 2142379

**LCBP Accredited Installer for Wind**

## **Aerodyn-Shorepower**

16 Popes Lane, Wellington,  
Somerset, TA21 9DQ  
T: 01823 666177 F: 01823 666177  
E: shorepower@ukonline.co.uk

## *Equipment Supply, Micro & Small Wind, Photovoltaics*

Wind turbine systems from 200W to 10kW; blades, alternators and inverters. Sell US SSW Air machine. We also supply PV systems and are consultants for microgeneration and low energy buildings.

## **Alkane Biogas Ltd**

5 Royal Crescent, Cheltenham,  
Gloucestershire, GL50 3DA  
T: 01242 24211  
E: jfink@alkane.co.uk  
www.alkanebiogas.co.uk

## *Project development, biomass, anaerobic digestion*

Design and operation of biopower plants; anaerobic digestion of animal manure and organic waste.

## **All Wind UK Ltd**

Isel Barn Offices, Bosahan Farm  
Trewardreva Cross,  
Constantine, Falmouth  
T: 01326 340100  
Fax: 01326 340100  
E: info@all-wind.co.uk  
www.all-wind.co.uk  
Contact: Tristan Mackie

## *Consultancy, Wind, Project Development*

Wind power technical services, project management and development.

## **Alvan Blanch**

Chelworth, Malmesbury, Wiltshire,  
SN16 9SG  
T: 01666 577333  
E: info@alvanblanch.co.uk  
www.alvanblanch.co.uk

## *M&E supply, biomass*

Alvan Blanch is a British manufacturing company specialising in the design, production and supply of complete integrated crop processing systems throughout the world.

# South West England Renewable Energy: Company Directory A – Z Listing

## **A.J. Buchan Ltd**

Cotswold Efficient Energy Centre, Down Barn,  
Cherington, Tetbury, GL8 8SH  
T: 01285 841466  
F: 01285 841599  
E: andrewjohn.buchan@tiscali.co.uk  
www.buchan-heating.co.uk

## *Installation, Solar Thermal, Heat Pumps*

Heating and plumbing engineers with 27 years experience, A.J. Buchanan provide ground source heat pumps, solar thermal and solar pipes. With 9 employees they are accredited by Clear Skies and Worcester Bosch and are members of the Solar Trade Association.

**LCBP Accredited Installer for Solar Thermal**

## **Amos Pumps (UK) Ltd**

Wendron, Helston, Cornwall, TR13 0PY  
T: 01326-573341  
F: 01326-572322  
E: raymond@amospumps.com  
www.amospumps.com  
Contact: Raymond Lewry

## *Micro-wind*

Wind and solar powered water pumps. By using a wind generator and solar panels to charge batteries and then power water pumps to lift water for livestock, irrigation or domestic use. Sales, installation and repairs throughout the U.K.

## **Ampair**

T: 0845 389 0660  
E: sales@ampair.com  
www.ampair.com

## *Micro-wind, Small-Hydro*

Since 1973 Ampair wind turbines and water turbines have been powering many thousands of remote homes, yachts, scientific, and commercial locations worldwide. Ampair micro turbines are the choice of professionals from Alaska to Antarctica, the Solent to the Sahara. You can order on line, by telephone, or from one of our many distributors and installers. To complement the microwind and microhydro products which we manufacture in the UK, Ampair also supplies a range of specialist solar panels and accessories.

## **AnDigestion Ltd**

Holsworthy Biogas Plant, Holsworthy  
Devon, EX22 7HH  
T: 01409 253861  
F: 01409 254888  
info@andigestion.co.uk  
www.andigestion.co.uk

## *Operation & Maintenance, Anaerobic Digestion*

AnDigestion Ltd has been established by the Summerleaze Group to develop the technological base and commercial exploitation of anaerobic digestion (AD) in the UK. Summerleaze has extensive experience in the fields of waste management, landfill gas generation and project development, both through the parent company and AnDigestion's renewable energy sister, Summerleaze RE\_Generation Ltd. This expertise makes it the ideal enterprise for the development of a new waste-management and renewable power generation technology.

## **Appliance Services**

T: 07973 178239  
appservices@ukonline.co.uk  
Contact: Paul Hooper

## *Installation, Solar Thermal*

Solar thermal installers based in Avon.

**LCBP Accredited Installer for Solar Thermal**

## **Arada**

The Fireworks, Bridport, DT63BE  
T: 01308 427234  
F: 01308 423441  
E: info@arada.uk.com  
www.arada.uk.com

## *Biomass Heat & CHP, Material & Equipment Supply*

Manufacturer and distributor of wood burning domestic room heating stoves and Central heating wood boiler stoves for complete home heating.

## **Ark Energy Ltd**

PO Box 2098, Bristol, BS99 7QN  
T: 0117 914 7158  
E: gs@ark-energy.com  
www.ark-energy.com  
Contact: Gerry Swarbrick

## *Consultancy, Installation, Hydro, Wind, Micro-renewables*

Developer of renewable energy projects with widespread experience of many technologies including wind energy, biomass, energy from waste, landfill gas, small-scale hydro and new marine energy devices.

## **Arup**

63 St Thomas Street, Bristol, BS1 6JZ  
T: 0117 9765432  
www.arup.com/bristol/home/home.html

## *Consultancy, Construction, Wind, Biomass*

Our core skills are in the fields of structural, civil and building services engineering, including facilities management. We also provide specialist advice in a wide variety of areas, including transportation, environmental assessment, geotechnics, acoustics, economics and planning, and IT consultancy.

## *Consultancy & Support Services*

Solicitors with expertise in renewable energy projects with a particular focus on wind energy.

## *Consultancy & Support Services*

Technical support and consultancy services to companies operating in the coastal sector. Coastal Modelling, Consultancy, Client Survey Representation, Survey Support.

## *Consultancy & Support Services, Wave & Tidal, Hydro*

Established in 1991 Coastline Surveys Ltd is an independent company specialising in coastal, marine and riverine surveys and research. The highly qualified and versatile professional workforce undertake surveys ranging from marinas to commercial ports, reservoirs and lakes to rivers, estuaries and the open seas. The uniquely mobile inshore service is available from isolated beaches to industrial centres and, together with the offshore surveying services, provides full coverage of the coastal zone within Europe. In-field services include Bathymetry, Geophysics, VibroCoring, Grab and Water Sampling, Benthic Sampling, Diving, Underwater Video, Trawling, Tidal Measurements, Wreck Location, Salvage, Towage, Buoy Inspection, Buoy Maintenance, Outfall Inspection, Quay Inspection, Equipment & Stores Transfer, Education, Filming, Dredging & Dredge Research

## *Project Developer, wind*

Developer of Bessy Bell wind farm

## *Consultancy*

Community Energy Plus is a registered charity (Number 1068990) and a company limited by guarantee (Number 3533571). CEP manages the Cornwall Energy Efficiency Advice Centre, Cornwall Sustainable Energy Partnership, the Cornwall Community Renewables Initiative and the Home Health Programme. CEP works in Partnership with all the local authorities in Cornwall plus a wide range of other public, private and voluntary organisations to encourage the sustainable use and provision of energy as a means of addressing climate change, energy security and the elimination of fuel poverty.

## *Project Developer, Consultancy, Wind*

Community Windpower Ltd is an independent UK company committed to developing windfarms that are sympathetic to local landscapes and that local communities share in the benefits of these schemes. We firmly believe that local residents should be offered the opportunity to become stakeholders in, and ultimately share the benefits of, our projects. By following this approach, we aim to engender a sense of ownership amongst the local community. To ensure our aims are understood from the earliest stage, our policy is to adopt an open and consultative approach, thereby enabling us to work side-by-side with local communities in the development of mutually beneficial long term projects, and as such have readily signed up to the Regen SW's Public Engagement Protocol for Wind Energy.

www.ecotricity.co.uk

## *Project development, supply, wind*

Established in 1995 Ecotricity is the founder of the UK's green electricity market place and the first electricity company to build new renewable energy capacity without Government subsidy and to supply green electricity for the price of brown. Ecotricity is a pioneering wind energy developer, responsible for some major 'firsts' in the UK wind industry, including the UK's first multi-megawatt wind turbine at the Ecotech centre in Swaffham, Norfolk. Under its new Merchant Wind Power initiative Ecotricity built the UK's first fully commercial wind turbine, for Sainsbury's in March 2001. Merchant Wind Power enables organisations to have their own exclusive wind turbine on or off-site. There is no financial risk, because Ecotricity owns and operates the machine, and in return customers sign a 12-year power purchase agreement.

## *Consultancy & Support Services, Biofuels*

Ecovector Consulting provides strategy and technical advice to support sustainable energy implementation. Our staff have over 30 years of international business and energy research and consultancy experience, covering energy efficiency, renewable energy and energy in transport. ## *Supply, Construction & Installation, Solar Thermal*

We design, supply and install renewable energy solution for customers based in Cornwall. We are not tied to any particular manufacturer, this allows us to fully research all the manufacturers and honestly compare their strengths and weaknesses. This means we are able to provide the best solution for any situation. We strive to keep our overheads low which means that we can often install renewable energy at prices way below our competitors.

## Infinergy Ltd

30 West Borough, Wimborne, Dorset,  
BH21 1NF  
T: 01202 856800

2. Biomass  
3. Wave and Tidal energy  
Project management, EHS specialists

# South West England Renewable Energy: Company Directory A – Z Listing

## Pure Energy Professionals

58 Coinage St, Cornwall, TR13 8EL  
T: 01326 572720 F: 01326 564144  
E: info@peprenewables.com  
www.peprenewables.com

## Consultancy, Project Development, Wind

Advisors to Financial Institutions and trade players on merger and acquisition strategy as well as partnering in renewable industry.

## Q

### Quality Solar Systems Ltd

Suite 44, 83 Charminster Road, Bournemouth  
BH8 8UE, Dorset  
T: 0800 975 0795  
E: enquiries@qss1.fsnet.co.uk  
www.quality-solar-systems.com  
Contact: Paul Robinson

### Installation, Solar Thermal

Quality Solar Systems are based in Bournemouth on the South Coast of England. We install and maintain Solar Systems throughout the United Kingdom. With Solar Panels harnessing free energy from the sun, our systems can provide domestic hot water, underfloor heating and heat for Swimming Pools.

### LCBP Accredited Installer for Solar Thermal

### Quantock Energy & Environment

Crossways, Hill Top Lane, Kilve,  
Somerset, TA5 1SR  
T: 01278 741354  
E: enquiries@quantock-e2.co.uk  
www.quantock-e2.co.uk

### Consultancy

The focus of our consultancy support services is in the areas of sustainable transport, energy efficiency and renewable energy, and how these relate to the issues of local air quality management, climate change and the use of natural resources.

## R

### Redler Ltd

Redler House, Dudbridge, Stroud,  
Gloucestershire. GL5 3EY  
T: 01453 763611  
E: sales@redler.com  
www.redler.com

### Equipment Supply, Biomass Heat

Bulk materials handling expertise and able to manufacture and supply biomass furnaces, hoppers, etc.

### Redstone Construction Ltd

Unit 5 Bagbury Park, The Street Lydiard  
Millicent, Swindon, Wiltshire, SN5 3LW  
T: 01793 773080  
E: graham.carter@redstoneconstruction.co.uk  
www.redstoneconstruction.co.uk  
Contact: Graham Carter

### Installation, Solar Thermal

Installation of Solar Thermal  
Redstone Construction Ltd has worked on a variety of different schemes ranging from small refurbishment works with a contract value of a few thousand pounds, to housing schemes in excess of £1 million. We promote a positive, non-adversarial team approach to construction and still generate a good deal of our work from competitive tendering

### LCBP Accredited Installer for Solar Thermal

### Reflex Marine

Somar House, Heron Way, Truro,  
Cornwall, TR1 2XN  
T: 01872 321155 F: 01872 321166  
E: carol.richards@reflexmarine.com

### Installation, Operation & Maintenance

Reflex Marine provides innovative and risk focused solutions for offshore operators, delivering value to our clients by setting the highest possible standards for sea access to offshore installations and vessels.

### REHAU Ltd

The Building Centre, 26 Store Street  
London, WC1E 7BT  
T: 020 7307 8592  
F: 020 7307 8595  
E: tony.sweet@rehau.com  
www.rehau.co.uk

### Manufacture, Photovoltaic

Renewable energy systems manufacturers established 1948. Geothermal heating, ground air heat exchange, photovoltaics, solar thermal, rain water harvesting, water attenuation. Systems certified for use by the Passivhaus Institute. Working in partnership with Lorne Stewart PLC & Hydrock Ltd in the South West.

### Renewable Energy Information

## **Tidal Generation Ltd.**

University Gate East, Park Row, Bristol BS1 5UB  
T: 0117 915 1275  
F: 0117 903 9001  
E: info@tidalgeneration.co.uk  
www.tidalgeneration.co.uk

## *Project & Device Developers*

Tidal Generation Ltd is developing tidal turbines to generate electricity from tidal flows. We have an innovative concept for a fully submerged machine which is designed for reliability and economy.

## **Tidal Turbines Ltd.**

5 Heavitree Park, Exeter, EX1 3BP  
T: 01392 423323  
F: 01392 491706  
www.westernhydro.co.uk

## *Project & Device Developers*

Tidal Turbines have developed an innovative vertical axis turbine known as the Dual Vortex Control (DVC) Turbine with specially designed cowlings which enhance the water velocity around the turbine runner and greatly increase its efficiency.

## **The Energy Crops Company**

Elm View, Higher Yellow, Stogumber  
Taunton, TA4 4JH  
T: 07766 314 264  
F: 01984 656518  
E: ian.armstrong@energy-crops.com  
www.energy-crops.com

## *Biomass Heat*

The Energy Crops Company was set up in 2005 to provide sustainable wood-fired heating solutions to a wide range of commercial and industrial customers. We specialise in the supply of wood pellet fuel and, through our network of partners, deliver a complete service for converting to biomass heating.

## **Treco Ltd**

Howe Complex, Kentisbeare, Cullompton, Devon,  
EX15 2BR  
T: 0845 130 9012  
E: info@treco.co.uk  
www.treco.co.uk

## *Equipment Supply, Installation, Biomass Heat, Solar Thermal*

TRECO is committed to providing sustainable, economical and environmentally friendly heating solutions in the form of Biomass Boilers, Wood Pellet Room Heaters and integrated Solar Equipment.

## **Trenowin Independent Energy**

Trenowin Farm, Ludgvan, Penzance,  
Cornwall, TR20 8BL  
T: 01736 740955  
E: trenowin@btconnect.com  
Contact: Kay Trehwella

## *Solar Thermal, Installation*

We strive to provide accurate and comprehensive information about renewable energy sources, the best renewable energy products for our clients, install our products to the highest possible standard and provide our service at an affordable price so that more people can enjoy the benefits of renewable energy.

## **LCBP Accredited Installer for Biomass Stove, Biomass Boiler**

## **Triodos Bank NV**

Commercial Manager, Brunel House,  
11 The Promenade, Bristol, BS8 3NN  
T: 0117 9809767
